(PDF) List of Institute of Physics Publishing Journals

Discover 56+ from Institute of Physics Publishing journals for 2025. Explore both paid and free options with detailed metrics, quartiles, impact factors, submission guidelines, and access types to elevate your research and publishing success.

2D Materials

eISSN: 2053-1583

2D Materials aims to curate the most significant and cutting-edge research being undertaken in the field of 2D materials science and engineering. Serving an expanding multidisciplinary community of re...

Advances in Natural Sciences: Nanoscience and Nanotechnology

eISSN: 2043-6262

Advances in Natural Sciences: Nanoscience and Nanotechnology (ANSN) is an international, peer-reviewed journal publishing articles on all aspects of nanoscience and nanotechnology, including the funda...

Biofabrication

ISSN: 1758-5082

eISSN: 1758-5090

Biofabrication focuses on cutting-edge research regarding the use of cells, proteins, biological materials and biomaterials as building blocks to manufacture biological systems and/or therapeutic prod...

Bioinspiration and Biomimetics

ISSN: 1748-3182

eISSN: 1748-3190

Bioinspiration & Biomimetics publishes research involving the study and distillation of principles and functions found in biological systems that have been developed through evolution, and application...

Biomedical Materials (Bristol)

ISSN: 1748-6041

eISSN: 1748-605X

The goal of the journal is to publish original research findings and critical reviews that contribute to our knowledge about the composition, properties, and performance of materials for all applicati...

Biomedical Physics and Engineering Express

eISSN: 2057-1976

Biomedical Physics & Engineering Express (BPEX) is an inclusive, international, multidisciplinary journal devoted to publishing new research on any application of physics and/or engineering in medicin...

Chinese Physics

ISSN: 1009-1963

Cessation. Chinese Physics, published by the Chinese Physical Society and distributed outside of China by IOP Publishing, covers the latest developments and achievements in all branches of physics. Ar...

Chinese Physics B

ISSN: 1674-1056

Chinese Physics B is an international journal covering the latest developments and achievements in all branches of physics worldwide (with the exception of nuclear physics and physics of elementary pa...

Chinese Physics C

ISSN: 1674-1137

Chinese Physics C covers the latest developments and achievements in the theory, experiment and applications of: Particle physics; Nuclear physics; Particle and nuclear astrophysics; Cosmology;...

Chinese Physics Letters

ISSN: 0256-307X

eISSN: 1741-3540

Chinese Physics Letters provides rapid publication of short reports and important research in all fields of physics and is published by the Chinese Physical Society and hosted online by IOP Publishing...

Classical and Quantum Gravity

ISSN: 0264-9381

eISSN: 1361-6382

Classical and Quantum Gravity welcomes original research articles on all branches of gravitational physics and the theory of spacetime. The readership of the journal is broad, comprising gravitational...

Communications in Theoretical Physics

ISSN: 0253-6102

Communications in Theoretical Physics is devoted to reporting important new developments in the area of theoretical physics. Papers cover the fields of: mathematical physics quantum physics and qu...

Computational Science and Discovery

ISSN: 1749-4680

eISSN: 1749-4699

Cessation. Computational Science & Discovery (CSD) is an international, multidisciplinary journal focused on scientific advances and discovery through computational science in physics, chemistry, biol...

ECS Advances

eISSN: 2754-2734

The overall scope of ECS Advances will conform to the technical interest areas (TIAs) established by ECS. The current list of ECS TIAs are: â€¢ Batteries and Energy Storage â€¢ Carbon Nanostructures...

ECS Sensors Plus

eISSN: 2754-2726

ECS Sensors Plus is a one stop shop journal for sensors. This multidisciplinary, gold open access journal provides an international platform for publishing high-quality impactful articles and promotin...

Electrochemical Society Interface

ISSN: 1064-8208

The Electrochemical Society Interface is an authoritative yet accessible publication for those in the field of solid state and electrochemical science and technology. Published quarterly, this four-co...

Electronic Structure

eISSN: 2516-1075

Electronic Structure is a multidisciplinary journal covering all theoretical and experimental aspects of electronic structure research, including the development of new methods. It is dedicated to the...

Engineering Research Express

eISSN: 2631-8695

Engineering Research Express (ERX) is a broad, multidisciplinary journal devoted to publishing new experimental and theoretical research covering topics extending across all areas of engineering scien...

Environmental Research Communications

eISSN: 2515-7620

Environmental Research Communications is an open access journal for the rapid publication of high-quality research in all areas of environmental science. All submissions are expected to meet a high st...

Environmental Research Letters

eISSN: 1748-9326

The journal's coverage will reflect the increasingly interdisciplinary nature of environmental science, recognizing wide-ranging contributions to the development of methods, tools and evaluation strat...

Environmental Research: Infrastructure and Sustainability

eISSN: 2634-4505

Environmental Research: Infrastructure and Sustainability[®] (ERIS) is a multidisciplinary journal devoted to addressing important challenges relevant to every aspect of infrastructure and associated...

European Journal of Physics

ISSN: 0143-0807

eISSN: 1361-6404

European Journal of Physics is a journal of the European Physical Society and its primary mission is to assist in maintaining and improving the standard of taught physics in universities and other ins...

Europhysics Letters

ISSN: 0295-5075

eISSN: 1286-4854

General physics – physics of elementary particles and fields – nuclear physics – atomic, molecular and optical physics – classical areas of phenomenology – physics of gases, plasmas and elec...

Flexible and Printed Electronics

eISSN: 2058-8585

Flexible and Printed Electronics is a multidisciplinary journal publishing cutting edge research articles on electronics that can be either flexible, plastic, stretchable, conformable or printed. Rese...

Fluid Dynamics Research

ISSN: 0169-5983

Fluid Dynamics Research publishes original and creative works in all fields of fluid dynamics. The scope includes theoretical, numerical and experimental studies that contribute to the fundamental und...

Functional Composites and Structures

eISSN: 2631-6331

Functional composites and structures are essential to the creation of next-generation technologies and cultures in the fourth industrial revolution. Advances in this area will promote human welfare by...

International Journal of Extreme Manufacturing

ISSN: 2631-8644

eISSN: 2631-7990

The International Journal of Extreme Manufacturing (IJEM) publishes original articles and reviews of the highest quality related to the science and technology of manufacturing functional devices and s...

Inverse Problems

ISSN: 0266-5611

An interdisciplinary journal combining mathematical and experimental papers on inverse problems with theoretical, numerical and practical approaches to their solution. As well as applied mathematician...

Journal of Breath Research

ISSN: 1752-7155

eISSN: 1752-7163

Journal of Breath Research is dedicated to all aspects of scientific breath research. The traditional focus is on analysis of volatile compounds and aerosols in exhaled breath for the investigation of...

Journal of Cosmology and Astroparticle Physics

eISSN: 1475-7516

Journal of Cosmology and Astroparticle Physics (JCAP) encompasses theoretical, observational and experimental areas as well as computation and simulation. The journal covers the latest developments in...

Journal of Instrumentation

eISSN: 1748-0221

Journal of Instrumentation (JINST) covers major areas related to concepts and instrumentation in detector physics, accelerator science and associated experimental methods and techniques, theory, model...

Journal of Micromechanics and Microengineering

ISSN: 0960-1317

eISSN: 1361-6439

Journal of Micromechanics and Microengineering (JMM) primarily covers experimental work, however relevant modelling papers are considered where supported by experimental data. The journal is focussed...

Journal of Neural Engineering

ISSN: 1741-2560

The goal of Journal of Neural Engineering (JNE) is to act as a forum for the interdisciplinary field of neural engineering where neuroscientists, neurobiologists and engineers can publish their work i...

Journal of Optics – Nouvelle Revue d'Optique

ISSN: 0150-536X

Journal of Optics (United Kingdom)

ISSN: 2040-8978

eISSN: 2040-8986

Journal of Optics publishes new experimental and theoretical research across all areas of pure and applied optics, both modern and classical. Research areas are categorised as: Nanophotonics and pl...

Journal of Optics B: Quantum and Semiclassical Optics

ISSN: 1464-4266

eISSN: 1741-3575

Information not localized

Journal of Physics A: Mathematical and Theoretical

ISSN: 1751-8113

eISSN: 1751-8121

Research papers published in Journal of Physics A: Mathematical and Theoretical are categorised into one of six subject sections, defined below. To be acceptable for publication in the journal, papers...

Journal of Physics B: Atomic, Molecular and Optical Physics

ISSN: 0953-4075

Published twice-monthly (24 issues per year), Journal of Physics B: Atomic, Molecular and Optical Physics covers the study of atoms, ions, molecules and clusters, and their structure and interactions...

Journal of Physics Communications

eISSN: 2399-6528

Journal of Physics Communications publishes high-quality research in all areas of physics and builds on the strength and prestige of the Journal of Physics series. The journal does not make a subjecti...

Journal of Physics Condensed Matter

ISSN: 0953-8984

eISSN: 1361-648X

Journal of Physics: Condensed Matter covers the whole of condensed matter physics including soft matter, physics of chemical processes, and method development. Papers may report experimental, theoreti...

Journal of Physics D: Applied Physics

ISSN: 0022-3727

eISSN: 1361-6463

Journal of Physics D: Applied Physics, a leading international journal, reports cutting-edge multidisciplinary research across all areas of applied physics and the transition of those findings into ne...

Journal of Physics G: Nuclear and Particle Physics

ISSN: 0954-3899

eISSN: 1361-6471

Journal of Physics G: Nuclear and Particle Physics (JPhysG) publishes articles on theoretical and experimental topics in all areas of nuclear and particle physics, including nuclear and particle astro...

Journal of Physics: Complexity

eISSN: 2632-072X

Phys Complexity, showcases the most significant and exciting scientific developments in physics-related theoretical, experimental, and applied research that contributes to advancing our scientific...

Journal of Radiological Protection

ISSN: 0952-4746

eISSN: 1361-6498

Journal of Radiological Protection publishes articles on all aspects of radiological protection, including non-ionising as well as ionising radiations. Fields of interest range from research, developm...

Journal of Statistical Mechanics: Theory and Experiment

eISSN: 1742-5468

JSTAT is targeted to a broad community interested in different aspects of statistical physics, which are roughly defined by the fields represented in the conferences called 'Statistical Physics'. Subm...

Journal of the Electrochemical Society

ISSN: 0013-4651

eISSN: 1945-7111

The Journal of The Electrochemical Society (JES) is the leader in the field of solid-state and electrochemical science and technology. This peer-reviewed journal publishes an average of 450 pages of 7...

JPhys Energy

eISSN: 2515-7655

JPhys Energy, showcases the most significant and exciting scientific developments in energy research. An interdisciplinary journal, JPhys Energy welcomes submissions from all disciplines, including...

JPhys Materials

eISSN: 2515-7639

Research is increasingly a collaborative enterprise, breaking traditional subject boundaries and journals must evolve to reflect these changes. JPhys Materials is an innovative new open access jour...

JPhys Photonics

eISSN: 2515-7647

JPhys Photonics will showcase the most significant and exciting developments in the science, technology and application of photonics. Research is increasingly a collaborative enterprise, breaking t...

Laser Physics

ISSN: 1054-660X

eISSN: 1555-6611

Laser Physics offers a comprehensive view of theoretical and experimental laser research and applications. Articles cover every aspect of modern laser physics and quantum electronics, emphasizing phys...

Laser Physics Letters

ISSN: 1612-2011

eISSN: 1612-202X

Laser Physics Letters encompasses all aspects of laser physics sciences including, inter alia, spectroscopy, quantum electronics, quantum optics, quantum electrodynamics, nonlinear optics, atom optics...

Machine Learning: Science and Technology

eISSN: 2632-2153

Machine Learning: Science and Technology is a multidisciplinary open access journal that bridges the application of machine learning across the sciences with advances in machine learning methods and...

Materials for Quantum Technology

eISSN: 2633-4356

Materials for Quantum Technology is a multidisciplinary journal devoted to publishing cutting-edge experimental and theoretical research on the development and application of materials for all quan...

Materials Futures

eISSN: 2752-5724

Materials Futures is an international peer-reviewed gold open access journal focused on publishing original works, perspectives and reviews articles in all areas of basic and applied materials science...

Materials Research Express

eISSN: 2053-1591

Materials Research Express (MRX) is a multidisciplinary journal devoted to publishing new experimental and theoretical research on the properties, characterization, design and fabrication of all class...

Measurement Science and Technology

ISSN: 0957-0233

eISSN: 1361-6501

Measurement Science and Technology publishes articles on new measurement techniques and associated instrumentation. Papers that describe experiments must represent an advance in measurement science or...
