(PDF) List of Biomaterials Journals

Discover 80+ in biomaterials journals for 2025. Explore both paid and free options with detailed metrics, quartiles, impact factors, submission guidelines, and access types to elevate your research and publishing success.

ACS Applied Bio Materials

eISSN: 2576-6422

ACS Applied Bio Materials is an interdisciplinary journal publishing original research covering all aspects of biomaterials and biointerfaces including and beyond the traditional biosensing, biomedica...

ACS Biomaterials Science and Engineering

eISSN: 2373-9878

Modeling and informatics tools for biomaterials; synthesis and modulation of new biomaterials; bioinspired and biomimetic approaches to biomaterials; biomaterial interfaces and interactions; health ri...

ACS Materials Au

eISSN: 2694-2461

ACS Materials Au is an open access journal publishing letters, articles, reviews and perspectives describing high-quality research at the forefront of fundamental and applied research, and at the inte...

Acta Biomaterialia

ISSN: 1742-7061

eISSN: 1878-7568

Acta Biomaterialia is an international journal that publishes peer-reviewed original research reports, review papers and communications in the broadly defined field of biomaterials science. The emphas...

Acta of Bioengineering and Biomechanics

ISSN: 1509-409X

Acta of Bioengineering and Biomechanics is a platform allowing presentation of investigations results, exchange of ideas and experiences among researchers with technical and medical background. Papers...

Advanced Biology

eISSN: 2701-0198

Advanced Biology is a peer-reviewed, interdisciplinary hybrid access journal with a recently expanded scope that not only includes innovations in basic and applied life sciences, but also manuscripts...

Advanced Biomedical Engineering

eISSN: 2187-5219

Advanced Biomedical Engineering (ABE) is an international, Open Access and fully peer-reviewed journal covering all areas of biomedical engineering. Supported by the Japanese Society for Medical and B...

Advanced Biosystems

eISSN: 2366-7478

Advanced Biosystems extends the Advanced brand into the life sciences by publishing the best research into technologies that enhance and harness biological systems, including systems and synthetic bio...

Advanced Functional Materials

ISSN: 1616-301X

Firmly established as a top-tier materials science journal, Advanced Functional Materials reports breakthrough research in all aspects of materials science, including nanotechnology, chemistry, physic...

Advanced Healthcare Materials

ISSN: 2192-2640

eISSN: 2192-2659

Advanced Healthcare Materials was first published as a special focus section in Advanced Materials in 2011 and launched as an independent journal in 2012. Advanced Healthcare Materials, which is liste...

Advanced NanoBiomed Research

eISSN: 2699-9307

Advanced NanoBiomed Research will provide an Open Access home for cutting-edge nanomedicine, bioengineering and biomaterials research aimed at improving human health. The journal will capture a broad...

Advances in Materials Research (South Korea)

ISSN: 2234-0912

eISSN: 2234-179X

The Advances in Materials Research (AMR), An International Journal, aims at opening a new access to information about the current advances in interdisciplinary materials research and providing an exce...

[**APL Bioengineering**](#)

eISSN: 2473-2877

APL Bioengineering is devoted to research at the intersection of biology, physics, and engineering. The journal publishes high-impact manuscripts specific to the understanding and advancement of physi...

[**Artificial Organs**](#)

ISSN: 0160-564X

eISSN: 1525-1594

Artificial Organs is the official peer reviewed journal of The International Federation for Artificial Organs (Members of the Federation are: The American Society for Artificial Internal Organs, The E...

[**ASAIO Journal**](#)

ISSN: 1058-2916

eISSN: 1538-943X

ASAIO Journal is in the forefront of artificial organ research and development. On the cutting edge of innovative technology, it features peer-reviewed articles of the highest quality that describe...

[**Bioactive Materials**](#)

ISSN: 2452-199X

Bioactive Materials is an international, peer-reviewed research publication covering all aspects of bioactive materials. The journal welcomes the submission of research papers, reviews and rapid commu...

[**Biochar**](#)

eISSN: 2524-7867

Biochar is a professional academic journal covering multidisciplinary subjects such as agronomy, environmental science, and materials science. It publishes innovative articles in the fields of prepara...

[**Biofabrication**](#)

ISSN: 1758-5082

eISSN: 1758-5090

Biofabrication focuses on cutting-edge research regarding the use of cells, proteins, biological materials and biomaterials as building blocks to manufacture biological systems and/or therapeutic prod...

[**Bioinspired, Biomimetic and Nanobiomaterials**](#)

ISSN: 2045-9858

eISSN: 2045-9866

Bioinspired, biomimetic and nanobiomaterials are emerging as the most promising area of research within the area of biological materials science and engineering. The technological significance of this...

Biointerphases

ISSN: 1934-8630

eISSN: 1559-4106

Biointerphases emphasizes quantitative characterization of biomaterials and biological interfaces. As an interdisciplinary journal, a strong foundation of chemistry, physics, biology, engineering, the...

Biomacromolecules

ISSN: 1525-7797

eISSN: 1526-4602

Biomacromolecules is a leading forum for the dissemination of cutting-edge research at the interface of polymer science and biology. Submissions to Biomacromolecules should contain strong elements of...

Biomaterial Investigations in Dentistry

eISSN: 2641-5275

Our journal's editorial policy is rooted in a global perspective, welcoming contributions from researchers worldwide. We are committed to encompassing all fundamental and clinical dimensions of oral b...

Biomaterials

ISSN: 0142-9612

eISSN: 1878-5905

Biomaterials is an international journal covering the science and clinical application of biomaterials. A biomaterial is now defined as a substance that has been engineered to take a form which, alone...

Biomaterials Advances

eISSN: 2772-9508

Formerly known as Materials Science and Engineering, Biomaterials Advances includes topics at the interface of the biomedical sciences and materials engineering. Manuscripts on biological topics witho...

Biomaterials and Biosystems

eISSN: 2666-5344

Biomaterials and Biosystems is the newest title in Elsevier's biomaterials science portfolio; it sits alongside Biomaterials, Materials Today Bio and Biomaterials Advances. As part of the broader Mate...

Biomaterials Research

eISSN: 2055-7124

Biomaterials Research, the official journal of the Korean Society for Biomaterials, is an open access journal that publishes articles on all aspects of biomaterials research. Biomaterials Research cov...

Biomaterials Translational

ISSN: 2096-112X

Biomaterials Translational (ISSN: 2096-112X) is an international journal publishing research at the interface of translational medicine, biomaterials science and engineering. The journal publishes...

Biomatter

ISSN: 2159-2527

eISSN: 2159-2535

Cessation. Scope of Biomatter: Recent developments in medicine have resulted in a considerable and unprecedented increase in life span. The invention of artificial implants made from biomaterials, in...

BioMedical Engineering Online

eISSN: 1475-925X

BioMedical Engineering Online is an open access, peer-reviewed journal that is dedicated to publishing research in all areas of biomedical engineering. BioMedical Engineering Online is aimed at reader...

Biomedical Materials (Bristol)

ISSN: 1748-6041

eISSN: 1748-605X

The goal of the journal is to publish original research findings and critical reviews that contribute to our knowledge about the composition, properties, and performance of materials for all applicati...

Biomedical Materials and Devices

ISSN: 2731-4812

eISSN: 2731-4820

The journal serves as a resource for high impact innovations involving biomedical materials and devices, including recent developments in processing, benchtop evaluation, application-specific testing,...

Bio-Medical Materials and Engineering

ISSN: 0959-2989

eISSN: 1878-3619

The aim of Bio-Medical Materials and Engineering is to promote the welfare of humans and to help them keep healthy. This international journal is an interdisciplinary journal that publishes original r...

Biomedical Physics and Engineering Express

eISSN: 2057-1976

Biomedical Physics & Engineering Express (BPEx) is an inclusive, international, multidisciplinary journal devoted to publishing new research on any application of physics and/or engineering in medicin...

BioMetals

ISSN: 0966-0844

eISSN: 1572-8773

BioMetals is a well established, international, multidisciplinary journal solely devoted to the rapid publication of articles and reviews in this unique field. BioMetals features the fundamental advan...

Biomimetics

eISSN: 2313-7673

Biomimetics invites submissions on a wide range of topics, including but not limited to: - Biomimetic mechanism and design - Biomimetic robotics - Biofabrication and characterization - Biomimeti...

Biophysics Reviews

eISSN: 2688-4089

Biophysics Reviews (BPR) is a new journal featuring authoritative reviews and original research covering all areas of biophysics. The journal publishes research studies of high quality and comprehensi...

Biopolymers

ISSN: 0006-3525

eISSN: 1097-0282

Biopolymers publishes original research papers and review articles in the general area of macromolecular structure and function, as well as biologically relevant model systems. Manuscripts should repo...

Biosurface and Biotribology

eISSN: 2405-4518

Biosurface and BiotribologyÂ publishes peer-reviewed original research articles, topical reviews and communications focusing on the surfaces and tribology associated with biological systems. The topic...

Biotribology

eISSN: 2352-5738

Biotribology is the science of friction, lubrication and wear when applied to biological systems or natural phenomena. It is a diverse and multidisciplinary field which impacts all aspects of our dail...

BMEMat

ISSN: 2751-7438

eISSN: 2751-7446

Cell and Tissue Banking

ISSN: 1389-9333

eISSN: 1573-6814

Cell and Tissue Banking provides a forum for disseminating information to scientists and clinicians involved in the banking and transplantation of cells and tissues. Cell and Tissue Banking is an inte...

ChemNanoMat

eISSN: 2199-692X

ChemNanoMat is a top-ranking materials chemistry journal for primary research papers and review articles from authors across the world. The journal covers all aspects of the chemistry of nanomaterials...

Computers, Materials and Continua

ISSN: 1546-2218

eISSN: 1546-2226

This journal publishes original research papers in the areas of computer networks, artificial intelligence, big data management, software engineering, multimedia, cyber security, internet of things, m...

Current Nanomaterials

ISSN: 2405-4615

eISSN: 2405-4623

Current Nanomaterials , a peer reviewed journal publishes full-length/mini reviews, original research articles and thematic issues on experimental and applied research on nanomaterials. The scope cove...

Current Opinion in Biomedical Engineering

eISSN: 2468-4511

Current Opinion in Biomedical Engineering provides systematic and focused reviews of the latest developments in different areas of the field of biomedical engineering. The Journal editors invite exper...

Developments in Biologicals

ISSN: 1424-6074

eISSN: 1662-2960

Information not localized

Discover Materials

eISSN: 2730-7727

Discover Materials is part of the Discover journal series committed to providing a streamlined submission process, rapid review and publication, and a high level of author service at every stage. It i...

Drewno

ISSN: 1644-3985

eISSN: 2956-9141

Wood. Research papers. Reports. Announcements" ("Drewno") is an international scientific journal that publishes original results of innovatory basic and applied research concerning technological, tech...

Emergent Materials

ISSN: 2522-5731

eISSN: 2522-574X

Emergent Materials is a multidisciplinary peer-reviewed journal, which publishes reviews, mini reviews, communications, progress reports, research news and original research articles at the forefront...

EnergyChem

eISSN: 2589-7780

The journal will invite review articles in all areas of chemistry, chemical engineering and materials science related to the design, production and use of materials for energy applications in a chemis...

Engineered Regeneration

eISSN: 2666-1381

Engineered Regeneration (ER) is a peer reviewed, fully Open Access journal that advances the biomedical field with cutting-edge research and applications on all aspects of tissue growth, regeneration,...

Engineering Science and Technology, an International Journal

eISSN: 2215-0986

Engineering Science and Technology, an International Journal (JESTECH) (formerly Technology), a peer-reviewed quarterly engineering journal, publishes both theoretical and experimental high quality pa...

European Cells and Materials

ISSN: 1473-2262

eCM provides an interdisciplinary forum for publication of preclinical research in the musculoskeletal field (Orthopaedics, Trauma, Maxillofacial (including dental) and Spine). Clinical case reports o...

European Journal of Materials

eISSN: 2688-9277

European Journal of Materials is a fully open access materials science and engineering journal that covers the functional and structural behavior of materials. The journal is published on behalf of th...

Fibers

eISSN: 2079-6439

The following topics are relevant and within the scope of this journal: -textile fibers -natural fibers and biological microfibrils -metallic fibers -optic fibers -carbon fibers -silicon carbi...

Food Packaging and Shelf Life

ISSN: 2214-2894

Food packaging plays a vital role in preserving food throughout the distribution chain. Without packaging, the processing of food can become compromised as it is contaminated by direct contact with ph...

Gels

eISSN: 2310-2861

General subject areas include: -Organogels, hydrogels and ionic gels made either from low molecular weight compounds and/or polymers (i.e., physical (supramolecular) and chemical gels); -Composite...

Holzforschung

ISSN: 0018-3830

eISSN: 1437-434X

Holzforschung (HF) is an international scholarly journal that publishes cutting-edge research on the biology, chemistry, physics and technology of wood and wood components. High quality papers about b...

Innovative Biosystems and Bioengineering

eISSN: 2616-177X

The Innovative Biosystems and Bioengineering is a peer-reviewed journal that aims to publish original research articles, reviews, and short research reports in the diverse fields of bioresearch includ...

Interface Focus

ISSN: 2042-8898

eISSN: 2042-8901

Each Interface Focus themed issue is devoted to a particular subject at the interface of the physical and life sciences. Formed of high-quality articles, they aim to facilitate cross-disciplinary rese...

International Biodeterioration and Biodegradation

ISSN: 0964-8305

International Biodeterioration and Biodegradation publishes original research papers and reviews on the biological causes of deterioration or degradation. "The causes may be macro" or microbio...

International Journal of Adhesion and Adhesives

ISSN: 0143-7496

The International Journal of Adhesion and Adhesives draws together the many aspects of the science and technology of adhesive materials, from fundamental research and development work to industrial ap...

International Journal of Artificial Organs

ISSN: 0391-3988

eISSN: 1724-6040

The International Journal of Artificial Organs (IJAO) publishes peer-reviewed research and clinical, experimental and theoretical, contributions to the field of artificial, bioartificial and tissue-en...

International Journal of Biological Macromolecules

ISSN: 0141-8130

eISSN: 1879-0003

International Journal of Biological Macromolecules is an established international journal of research into chemical and biological aspects of all natural macromolecules. It presents the latest finding...

International Journal of Biomaterials

ISSN: 1687-8787

eISSN: 1687-8795

International Journal of Biomaterials publishes papers on the theory, design, engineering, fabrication, and implementation of devices for therapeutic or diagnostic use in biological systems. The journ...

International Journal of Ceramic Engineering and Science

eISSN: 2578-3270

Aims of the Publication International Journal of Ceramic Engineering and Science is a peer-reviewed interdisciplinary journal covering all aspects of research, development, processing, manufacturin...

International Journal of Green Nanotechnology: Materials Science and Engineering

ISSN: 1943-0841

eISSN: 1943-0833

Cessation

International Journal of Medical Engineering and Informatics

ISSN: 1755-0653

eISSN: 1755-0661

IJMEI promotes an understanding of the structural/functional aspects of disease mechanisms and the application of technology towards the treatment/management of such diseases. It seeks to promote inte...

International Journal of Nano and Biomaterials

ISSN: 1752-8933

eISSN: 1752-8941

In recent years, frontiers of research in engineering, science and technology have been driven by developments in nanomaterials, encompassing a diverse range of disciplines such as materials science,...

International Journal of Nanomedicine

ISSN: 1176-9114

eISSN: 1178-2013

The International Journal of Nanomedicine is an international, peer-reviewed, open-access journal that reports on all aspects of nanotechnology applications throughout the biomedical field. Reflecting...

International Journal of Surface Engineering and Interdisciplinary Materials Science

ISSN: 2166-7225

eISSN: 2166-7233

The mission of the International Journal of Surface Engineering and Interdisciplinary Materials Science (IJSEIMS) is to provide channel of communication to disseminate knowledge between academics/rese...

International Journal of Wood Culture

ISSN: 2772-3186

eISSN: 2772-3194

Journal of Advanced Research in Applied Mechanics

eISSN: 2289-7895

Information not localized

Journal of Applied Biomaterials and Functional Materials

eISSN: 2280-8000

The Journal of Applied Biomaterials & Functional Materials (JABFM) is an open access, peer-reviewed, international journal, that considers the publication of original contributions, reviews and editor...

Journal of Artificial Organs

ISSN: 1434-7229

eISSN: 1619-0904

The aim of the Journal of Artificial Organs is to introduce to colleagues worldwide a broad spectrum of important new achievements in the field of artificial organs, ranging from fundamental research...

Journal of Bioactive and Compatible Polymers

ISSN: 0883-9115

eISSN: 1530-8030

The use and importance of polymers for biologically relevant applications is currently one of the most rapidly growing sciences. The Journal of Bioactive and Compatible Polymers provides polymer scien...

Journal of Biobased Materials and Bioenergy

ISSN: 1556-6560

eISSN: 1556-6579

Information not localized

Journal of Biomaterials Applications

ISSN: 0885-3282

eISSN: 1530-8022

The Journal of Biomaterials Applications is a fully peer reviewed international journal that publishes original research and review articles that emphasize the development, manufacture and clinical ap...

Journal of Biomaterials Science, Polymer Edition

ISSN: 0920-5063

eISSN: 1568-5624

The Journal of Biomaterials Science, Polymer Edition publishes fundamental research on the properties of polymeric biomaterials and the mechanisms of interaction between such biomaterials and living o...

Journal of Biomedical Materials Research

ISSN: 0021-9304

Information not localized
